The Jordanian bombings

Three major hotels in Amman Jordan were bombed by Al-Quida terrorists killing fifty-seven people, three of which were American tourists. The bombings are known to have been led by Al-Zarqawi, who is one of the leaders of Al-Quida who is known to have a personal grudge on his homelands government. Most of the people were killed during wedding receptions that were being held at the Grand Hayatt and the Raddison. The terrorists are thought to have attacked because Jordan was so supportive of the US war on terror. The bombings have sparked flames of outrage within the Jordanians whom live in the small dessert nation. Zarqawi now has a bounty of twenty-five million dollars on his head.

We Went To Our Friends

by Mark Sakowski

When Luke, David, Laura, and I went to our friends house, we had to stay outside. Most of the day, we played on a trampoline. Then, Johnny, one of our friends, got a big ball and he put it in the trampoline. After we were done, Timmy, my friend, watched me try to ride a bike, but I could not ride the bike. After I had an apple, we went home and ate dinner. After our chores, we went to bed.

The First Snow

By Laura

Today is November 13. It is good because it is snowing. I am happy because it is snowing good. I like it because I can slide down our hill on my sled and I can build a snowman with it.
